

What is claimed is:

1. A porous sheet laminate comprising a release sheet, an ink-receiving porous sheet and provided therebetween an adhesive layer endowed with a water-passing property.
2. The porous sheet laminate as described in claim 1, wherein the adhesive layer is provided with a concave groove or an irregularity part to be endowed with a water-passing property.
3. The porous sheet laminate as described in claim 1, wherein a water vapor-permeating adhesive is used for the adhesive layer to be endowed with a water-passing property.
4. The porous sheet laminate as described in claim 1, wherein a sheet having pores is inserted into the adhesive layer to endow it with a water-passing property.
5. A water resistant display sheet prepared by providing in order a printing layer and a protective layer on the surface of the ink-receiving porous sheet in the porous sheet laminate as described in

any of claims 1 to 4.

6. The water resistant display sheet as described in claim 5, wherein it is used for ink jet printing.
